

Experity OnePACS Week 33 Release

Fixes & Enhancements

Release Date: 08/20/2025

Resolved: RemotEye Viewer Report Loading Error

We've fixed the java.net.ProtocolException: Server redirected too many times error that impacted report loading and disc burning in RemotEye Viewer.

Letterhead Linking Issue Corrected

Letterheads now automatically associate with the appropriate subgroup during report confirmation, as originally intended.

<https://onepacshelp.com/display/V12/Report+Letterhead>

Study Type Permission Handling Improved

Editing permissions for Study Types no longer causes unintended changes to other users' proofreading permissions.

<https://onepacshelp.com/display/V12/Study+Types>

Study Retriever Policy Behavior Fixed

A defect that prevented limits on unmatched study downloads based on age or quantity has been resolved.

New Features & Enhancements

Enhanced Facility Selection in Orders Tab

Enjoy smoother scrolling when navigating long facility lists in the Orders tab dropdown.

Smarter Report Distribution Configuration

Inactive facilities are now excluded from the "Available" column when setting up distribution rules—streamlining the setup process.

<https://onepacshelp.com/display/V12/Report+Distribution>

Refined Study Fee Copying Workflow

When copying fees between facilities, inactive locations are either excluded or clearly labeled to avoid confusion.
